

Gender Pay Gap Report for 2018/19

The Trust is an employer required by law to carry out Gender Pay Reporting under the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017.

This involves carrying out six calculations that show the difference between the average earnings of men and women in the Trust; it does not involve publishing individual employee data.

The Trust is required to publish the results on its website and a government website. We will do this within one calendar year of 5 April 2018.

The challenge in our Trust and across Great Britain is to eliminate any gender pay gap.

The Trust's results for the 2018/19 reporting year are:

1. Mean gender pay gap: 20.8%
2. Median gender pay gap: 31.4%
3. Mean bonus gender pay gap: 0%
4. Median gender pay gap: 0%
5. Proportion of males and females receiving a bonus payment:
 - a. 0% (male);
 - b. 0% (female);
6. Proportion of males and females when divided into four groups (quartiles) ordered from lowest to highest pay:
 - a. Lower quartile: male 13.0%, female 87.0%
 - b. Lower middle quartile: male 15.9%, female 84.1%
 - c. Upper middle quartile: male 20.6%, female 79.4%
 - d. Upper quartile: male 29.9%, female 70.1%

The results show:

- No bonus payments are made to staff as whole;
- Female staff are in the greatest proportion across all quartiles, whilst also making up a significant part of the total workforce;
- The Trust believes a gender pay gap exists due to the nature of many roles in schools traditionally filled by female workers (i.e. primary school teachers, learning support assistants, catering assistants, midday assistants, cleaners and other support staff), whilst more senior positions are in fact more widely shared amongst gender. This is not by design, but as a result of this historic pattern. The Trust does not discriminate in any capacity and these results do not portray illegal practice in any way.
- The gender pay gap has reduced from 2017/18 to 2018/19 and the Trust undertake many of the Government Equalities Office recommendations to reduce the pay gap including: structured interviews; skills based assessments; advertising salary ranges; transparency in respect of pay.

We can use these results to assess:

- the levels of gender equality in our workplace;
- the balance of male and female employees at different levels; and
- how effectively talent is being maximised and rewarded.

Trust will consider how we will use these results to address the above gender pay gap. Further details about how we intend to tackle our gender pay gap can be found by:

- talking to your Headteacher; and/or
- contacting the Trust HR department.

Gender pay reporting requires the Trust to make calculations based on employee gender. We will establish this by using our existing HR and payroll records. All employees can confirm and update their records if they choose to by contacting the HR department at hr@swecet.org

This report is approved by the Board of Trustees on 26 March 2019.
